### Laboratory Manual for Anatomy & Physiology (5th Edition) (Anatomy and Physiology) By Elaine N. Marieb

This full-color laboratory manual is designed for instructors who teach a two-semester introductory anatomy & physiology course, but do not require the full range of laboratory exercises found in Marieb's best-selling *Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main)*. Though this lab manual can be used with any two-semester text, it will be most effectively used with Marieb's *Anatomy & Physiology, Fifth Edition*.

The lab manual features a brand new student-friendly design, including checkboxes to help students track their progress, a complete list of objectives at the beginning of each exercise, and fully-updated terminology in accordance with *Terminologia Anatomica* and *Terminologia Histologica*. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets, and new art and photos that help bring A&P to life.

## **Editorial Review**

### About the Author

For **Elaine N. Marieb**, taking the student's perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst.

While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience, along with stories from the field—including those of former students, now in health careers—that has informed the development of the unique perspective and accessibility for which her texts and laboratory manuals are known.

In her ongoing commitment to students and her realization of the challenges they face, Dr. Marieb has given generously to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by providing several full-tuition scholarships each year for women returning to college after a hiatus or who are attending college for the first time and would otherwise be unable to continue with their studies without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and generously contributed to the University of Massachusetts at Amherst where she provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory that bears her name.

In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor and in 2012 a new health professions facility at Florida Gulf Coast University was also named after Dr. Marieb.

Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings Interactive Physiology CD-ROM series, and is an active member of the Human Anatomy and Physiology Society (HAPS), the American Association for the Advancement of Science (AAAS), and Sigma Xi. **Anatomy & Physiology, Fifth Edition** is the latest expression of her commitment to student needs in their pursuit of the study of A&P.
