## Mayo Clinic Gastroenterology and Hepatology Board Review (Mayo Clinic Scientific Press) By Stephen Hauser

Launched on *Oxford Medicine Online* in 2012, with the full-text of eight *Mayo Clinic Scientific Press* (MCSP) print titles and a bank of multiple-choice questions, *Mayo Clinic Toolkit* provides a single location for resident, fellow, and practicing clinicians to undertake the self-testing necessary to prepare for, and pass, the Boards.

*Mayo Clinic Gastroenterology and Hepatology Board Review* has been designed to provide a review of core essential knowledge in gastroenterology, hepatology, and relevant related areas of radiology, pathology, endoscopy and nutrition to physicians, trainees and other persons caring for patients, gastroenterology fellows in training, medical residents, medical students, gastrointestinal assistants, nurses, and allied health care personnel. For persons preparing for their board examination, certification or recertification, case-based presentations and numerous board examination-type single best-answer questions with annotated answers are provided. Abundant figures, images and tables are included - these can be enlarged and downloaded to PowerPoint.

Highlights of *The Mayo Clinic Toolkit* include:

- Each title is presented in an enhanced format, allowing the enlargement and download of all figures and images, and linking to external sources referenced in the text.
- The multiple-choice questions are designed to mirror those in the Board exam for realistic preparation; they also link back to the relevant title, and allow the user to measure their development through the recording of practice-exam success.
- It can be accessed on a range of internet enabled devices, giving residents, fellows, and practicing clinicians the choice to study in locations which suit them
- Subscription lengths range from 1-month to a full year.

Combining two complimentary resource types into a single location, with enhancements to the print works, the flexibility to choose where and when to

study, and the ability to monitor revision progress, *Mayo Clinic Toolkit* is truly the go-to site for Board preparation.

### **Editorial Review**

#### Review

[a] good text for young doctors aiming to become gastroenterologists or for physicians in practice desiring to consolidate their knowledge in the field. The language is clear and easily comprehensive, reflecting the teaching experience of the authors. [A]ll indispensable information is included here. Digestive Liver Disease 36 a practical, information dense book that delivers a good basic overview of the subject. The size, organization, and style of writing make it an easy read, and it thus makes the business of 'getting ready for boards' much more manageable. This is a book that is targeted to, and perhaps best meets the needs of, the fellow in training preparing for certification or a physician in practice who would like a 'refresher course' in basic gastroenterology, hepatology, and nutrition. Practical Gastroenterology Overall, I think the book succeeds in a very difficult task. It is thorough and engaging, mostly stimulating and rarely frustrating. It is informative without being overwhelming and that is vital for those locked into a board review schedule. Bottom Line: Buy it for the exam but you will continue to use it. Sean Weaver, M.A., Ph.D., M.R.C.P., Southampton General Hospital, UK emphasizes recent clinical knowledge related to diagnostic and therapeutic approaches to patients with gastrointestinal ailments. A useful feature is the inclusion of case-based presentations and short board-examination-type questions with a single best answer and explanations. predominantly a practical review to consolidate practitioners' knowledgeIt should greatly assist GI fellows preparing for the GI board examination aswell as the growing number of gastroenterologists awaiting recertification. The authors are all associated with the Mayo Clinic and, as such, credible authorities in their fields. William J.S. de Villiers, M.D., Ph.D., University of Kentucky College of Medicine, for Doody's Review Services
