## The Cervical Spine: The Cervical Spine Research Society Editorial Committee By Charles Clark

The thoroughly revised, updated Third Edition of this highly acclaimed work presents the most recent advances in the diagnosis and treatment of cervical spine disorders. Prepared by internationally recognized members of The Cervical Spine Research Society Editorial Committee, this volume is the definitive source of information on basic and clinical research, new diagnostic techniques, and current therapeutic strategies. The book is profusely illustrated with 1,000 photographs, line drawings, and radiographs, 850 of which are new to this edition. Coverage features expert discussions of surgical indications and techniques for specific diseases, including the use of internal fixation where appropriate. Detailed information is provided on state-of-the-art diagnostic imaging modalities such as magnetic resonance imaging. This edition also features a chapter on principles of intraoperative monitoring and an in-depth discussion of acute spinal cord injuries, including pathophysiologic mechanisms, experimental therapy, and recovery of function.
