Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics)

By Ulrich Görtz, Torsten Wedhorn

Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) By Ulrich Görtz, Torsten Wedhorn

This book introduces the reader to modern algebraic geometry. It presents Grothendieck's technically demanding language of schemes that is the basis of the most important developments in the last fifty years within this area. A systematic treatment and motivation of the theory is emphasized, using concrete examples to illustrate its usefulness. Several examples from the realm of Hilbert modular surfaces and of determinantal varieties are used methodically to discuss the covered techniques. Thus the reader experiences that the further development of the theory yields an ever better understanding of these fascinating objects. The text is complemented by many exercises that serve to check the comprehension of the text, treat further examples, or give an outlook on further results. The volume at hand is an introduction to schemes. To get startet, it requires only basic knowledge in abstract algebra and topology. Essential facts from commutative algebra are assembled in an appendix. It will be complemented by a second volume on the cohomology of schemes.

Users Review

From reader reviews:

James Miguel:

Book is to be different for each and every grade. Book for children right up until adult are different content. As you may know that book is very important for people. The book Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) was making you to know about other know-how and of course you can take more information. It is rather advantages for you. The publication Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) is not only giving you more new information but also to be your friend when you really feel bored. You can spend your own personal spend time to read your book. Try to make relationship with all the book Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics). You never sense lose out for everything in case you read some books.

Christine Pena:

Spent a free a chance to be fun activity to try and do! A lot of people spent their sparetime with their family, or all their friends. Usually they undertaking activity like watching television, going to beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? Could possibly be reading a book may be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to try look for book, may be the e-book untitled Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) can be very good book to read. May be it could be best activity to you.

Caleb Hutto:

A lot of people always spent their particular free time to vacation or even go to the outside with them family members or their friend. Do you know? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you want to try to find a new activity this is look different you can read any book. It is really fun for you personally. If you enjoy the book that you simply read you can spent the whole day to reading a guide. The book Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) it doesn't matter what good to read. There are a lot of people who recommended this book. These were enjoying reading this book. In the event you did not have enough space bringing this book you can buy the actual e-book. You can m0ore easily to read this book from your smart phone. The price is not too expensive but this book provides high quality.

Jason Nimmons:

In this time globalization it is important to someone to receive information. The information will make professionals understand the condition of the world. The fitness of the world makes the information better to share. You can find a lot of recommendations to get information example: internet, magazine, book, and soon. You will see that now, a lot of publisher which print many kinds of book. The particular book that recommended for your requirements is Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) this guide consist a lot of the information of the condition of this world now. This book was represented how does the world has grown up. The terminology styles that writer make usage of to explain it is easy to understand. The particular writer made some investigation when he makes this book. That's why this book acceptable all of you.
