An Introduction to Performance Analysis of Sport (Routledge Studies in Sports Performance Analysis) By Peter O'Donoghue

Performance analysis has become an essential tool for coaches, athletes, sports organisations and academic researchers. Collecting and interpreting performance data enables coaches to improve their training programmes, athletes to make better tactical decisions, sports organisations to manage teams more effectively, and researchers to develop a better understanding of sports performance. This book is an essential introduction to the fundamental principles of performance analysis of sport and how to develop and operate performance analysis systems.

Containing worked examples from real sporting events throughout, the book introduces the basics of quantitative and qualitative performance analysis, reviews the different types of data and information that performance analysis can generate, and explains how to test for reliability. It presents a step-by-step guide to developing both manual and computerised analysis systems, and writing up and presenting findings from performance analysis programmes. Representing the most up-to-date, concise and engaging introduction to sports performance analysis, this book is an ideal course text for all introductory performance analysis courses, as well as an invaluable primer for coaches and practitioners in sport.

Editorial Review

About the Author

Peter O'Donoghue is Reader and Discipline Director for Performance Analysis in the Cardiff School of Sport, Cardiff Metropolitan University, UK. He is a member of the International Society of Performance Analysis of Sport, editor of the *International Journal of Performance Analysis of Sport*, and editor of the book series *Routledge Studies in Sports Performance Analysis*. He has extensive experience of providing performance analysis support in elite sport, and his research interests include relative age distribution in sport, predictive modelling of sports performance, and strategy in elite racket sport competition.

Users Review

From reader reviews:

Vernie Ruiz:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a expertise or any news even a huge concern. What people must be consider any time those information which is in the former life are challenging be find than now is taking seriously which one works to believe or which one often the resource are convinced. If you find the unstable resource then you buy it as your main information we will see huge disadvantage for you. All of those possibilities will not happen within you if you take *An Introduction to Performance Analysis of Sport (Routledge Studies in Sports Performance Analysis)* as your daily resource information.

Joaquin Bedard:

Spent a free time for you to be fun activity to do! A lot of people spent their leisure time with their family, or their very own friends. Usually they carrying out activity like watching television, gonna beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your free time/ holiday? Might be reading a book could be option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to try look for book, may be the reserve untitled *An Introduction to Performance Analysis of Sport (Routledge Studies in Sports Performance Analysis)* can be very good book to read. May be it can be best activity to you.

John Flores:

Are you kind of occupied person, only have 10 or even 15 minute in your morning to upgrading your mind skill or thinking skill also analytical thinking? Then you are having problem with the book as compared to can satisfy your small amount of time to read it because all of this time you only find guide that need more time to be go through. *An Introduction to Performance Analysis of Sport (Routledge Studies in Sports Performance Analysis)* can be your answer because it can be read by a person who have those short extra

time problems.

Janice Leon:

What is your hobby? Have you heard that question when you got college students? We believe that that query was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. So you know that little person like reading or as reading become their hobby. You have to know that reading is very important along with book as to be the point. Book is important thing to provide you knowledge, except your teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you choose to use be your object. One of them are these claims An Introduction to Performance Analysis of Sport (Routledge Studies in Sports Performance Analysis).
