**Rogue Planet (Star Wars)** By Greg Bear

### MASTER AND APPRENTICE

The Force is strong in twelve-year-old Anakin Skywalker . . . so strong that the Jedi Council, despite misgivings, entrusted young Obi-Wan Kenobi with the mission of training him to become a Jedi Knight. Obi-Wan? like his slain Master Qui-Gon?believes Anakin may be the chosen one, the Jedi destined to bring balance to the Force. But first Obi-Wan must help his undisciplined apprentice, who still bears the scars of slavery, find his own balance.

Dispatched to the mysterious planet of Zonama Sekot, source of the fastest ships in the galaxy, Obi-Wan and Anakin are swept up in a swirl of deadly intrigue and betrayal. They sense a disturbance in the Force unlike any they have encountered before. It seems there are more secrets on Zonama Sekot than meet the eye. But the search for those secrets will threaten the bond between Obi-Wan and Anakin . . . and bring the troubled young apprentice face-to-face with his deepest fears?and his darkest destiny.

## Editorial Review

### Amazon.com Review

It's an unexpected combination: Greg Bear, author of so many ambitiously complex SF novels, writing about the colorful simplicities of the *Star Wars* universe. But he carries it off well, with a mix of action-adventure and thoughtful world building that entertains while keeping to the spirit of Lucas's saga.

A few years after the events of *The Phantom Menace*, young Anakin Skywalker is getting restless--sneaking away from Jedi Temple training to gamble his life in a flying game that's much more bizarre and dangerous than the movie's pod racing, even before an alien Blood Carver assassin intervenes. Anakin's character is taking shape now:

But above all, he loved *winning*.

To turn the boy's frustrated energy to useful ends, the Jedi Council has Obi-Wan Kenobi take Anakin to investigate the remote, enigmatic world Zonama Sekot, whose organic technologies produce magnificent spacecraft, and where a Jedi has vanished without a trace. Secretly pursuing them is a battle squadron captained by the weapons designer who has already blueprinted the Death Star and is being double-crossed by his employer Commander Tarkin.

*Rogue Planet's* action climaxes as the Jedis learn to grow their own spaceship, the Blood Carver strikes, and two heavily armed fleets converge on helpless-seeming Zonama Sekot. Every faction has secret cards up its sleeve--and Anakin's is a very dangerous wild card indeed. There's final victory and heartbreak, but also loose ends (including even stranger, deadlier aliens) that suggest sequels to follow. Bear does a solidly workmanlike job. --David Langford, *Amazon.co.uk*
