Vascular and Endovascular Medicine Study Guide: A compilation of examination questions and answers from the VIVA Faculty and Additional Expert Contributors (Volume 1) By Dr. Michael R. Jaff

The Vascular and Endovascular Medicine Study Guide is a 10-year compilation of examination questions and content from Vascular InterVentional Advances (VIVA) and other expert contributors. Since its first symposium in 2003, VIVA has provided state-of-the-art education for physicians with an interest and commitment to vascular and endovascular medicine. VIVA's unique Laptop Learning ? system has allowed participants to engage in pre- and post-testing to determine their level of knowledge and gauge their improvement over the week of VIVA's annual conference. We have pooled these questions and added many more, as well as provided explanations of correct and incorrect answers to create a true study guide. This is designed not only for those physicians interested in sitting for the American Board of Vascular Medicine General and Endovascular board certification examinations, but also as a guide for any physicians who care for patients with vascular disease. Features: 1. Five comprehensive practice exams, each containing approximately 50 multiple choice questions 2. Complete answer explanations for further understanding of each question 3. Full color images of scans, tests, and patient conditions 4. Ideal review for the American Board of Vascular Medicine examinations
