Editorial Review

About the Author

"David I. Schneider" spent over 32 years teaching at the University of Maryland, has published an impressive 28 books over the past 18 years. He is the author of several best-selling texts, including his Visual Basic Series with Prentice Hall. Why are his books best-sellers? Students love his extensive use of examples and applications--a concept that stems from his teaching experience and results in books that are "tried and true." His best-selling Visual Basic texts have been successfully used for many years and have received consistent praise from both students and instructors.

Users Review

From reader reviews:

Jimmy Robertson:

What do you do about book? It is not important together with you? Or just adding material when you want something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make you feel bored faster. And you have spare time? What did you do? Everybody has many questions above. The doctor has to answer that question since just their can do this. It said that about reserve. Book is familiar on every person. Yes, it is right. Because start from on kindergarten until university need this kind of College Algebra, MyMathLab, and Student Solutions Manual to read.
