Editorial Review

About the Author

Marvin Bittinger has been teaching math at the university level for more than thirty-eight years. Since 1968, he has been employed at Indiana University Purdue University Indianapolis, and is now professor emeritus of mathematics education. Professor Bittinger has authored over 190 publications on topics ranging from basic mathematics to algebra and trigonometry to applied calculus. He received his BA in mathematics from Manchester College and his PhD in mathematics education from Purdue University. Special honors include Distinguished Visiting Professor at the United States Air Force Academy and his election to the Manchester College Board of Trustees from 1992 to 1999. Professor Bittinger has also had the privilege of speaking at many mathematics conventions, most recently giving a lecture entitled "Baseball and Mathematics." His hobbies include hiking in Utah, baseball, golf, and bowling. In addition, he also has an interest in philosophy and theology, in particular, apologetics. Professor Bittinger currently lives in Carmel, Indiana, with his wife Elaine. He has two grown and married sons, Lowell and Chris, and four granddaughters.

David Ellenbogen has taught math at the college level for nearly 30 years, spending most of that time in the Massachusetts and Vermont community college systems, where he has served on both curriculum and developmental math committees. He has taught at St. Michael's College and The University of Vermont. Professor Ellenbogen has been active in the American Mathematical Association of Two Year Colleges (AMATYC) since 1985, having served on its Developmental Mathematics Committee and as a delegate. He has been a member of the Mathematical Association of America (MAA) since 1979. He has authored dozens of texts on topics ranging from prealgebra to calculus and has delivered lectures on the use of language in mathematics. Professor Ellenbogen received his bachelor's degree in mathematics from Bates College and his master's degree in community college mathematics education from The University of Massachusetts–Amherst. In his spare time, he enjoys playing piano, biking, hiking, skiing and volunteer work. He currently serves on the boards of the Vermont Sierra Club and the Vermont Bicycle Pedestrian Coalition. He has two sons, Monroe and Zachary.

Barbara Johnson has a BS in mathematics from Bob Jones University and a MS in math from Clemson University. She has taught high school and college math for 25 years, and enjoys the challenge of helping each student grow in appreciation for and understanding of mathematics. As a Purdue Master Gardener, she also enjoys helping others learn gardening skills. Believing that the best teacher is always learning, she recently earned a black belt in karate.

Users Review

From reader reviews:

George Valentine:

What do you regarding book? It is not important to you? Or just adding material when you really need something to explain what yours problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have time? What did you do? Everyone has many questions above. The doctor has to answer that question

mainly because just their can do this. It said that about e-book. Book is familiar in each person. Yes, it is proper. Because start from on pre-school until university need this Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) to read.

Bernard Walker:

Do you one among people who can't read enjoyable if the sentence chained inside straightway, hold on guys this kind of aren't like that. This Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) book is readable by means of you who hate the perfect word style. You will find the information here are arrange for enjoyable studying experience without leaving actually decrease the knowledge that want to offer to you. The writer involving Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) content conveys the thought easily to understand by lots of people. The printed and e-book are not different in the content material but it just different such as it. So , do you still thinking Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) is not loveable to be your top listing reading book?

Loren Benton:

Beside this specific Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) in your phone, it could give you a way to get nearer to the new knowledge or details. The information and the knowledge you may got here is fresh from the oven so don't be worry if you feel like an older people live in narrow town. It is good thing to have Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) because this book offers to your account readable information. Do you at times have book but you would not get what it's about. Oh come on, that will not happen if you have this in the hand. The Enjoyable arrangement here cannot be questionable, like treasuring beautiful island. Techniques you still want to miss it? Find this book and read it from right now!

Lynnette Jennings:

Don't be worry should you be afraid that this book will certainly filled the space in your house, you can have it in e-book approach, more simple and reachable. This kind of Elementary and Intermediate Algebra: Concepts and Applications (6th Edition) can give you a lot of close friends because by you looking at this one book you have issue that they don't and make anyone more like an interesting person. This particular book can be one of a step for you to get success. This e-book offer you information that might be your friend doesn't recognize, by knowing more than some other make you to be great folks. So , why hesitate? We need to have Elementary and Intermediate Algebra: Concepts and Applications (6th Edition).
