

### The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat

By Richard P. Feynman, Robert B. Leighton, Matthew Sands

The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat By Richard P. Feynman, Robert B. Leighton, Matthew Sands

This three-volume work was originally designed for a two-year introductory physics course given at the California Institute of Technology--a course designed to take advantage of students' increasing mathematical prowess and to provide a more comprehensive view of modern-day physics. The volumes are an edited version of Richard Feynman's lectures, taped and transcribed specifically for the books. It was a rigorous undertaking that resulted in a classic reference work for all physics students, teachers, and researchers. Feynman's effective classroom style remains intact in these volumes, a valuable work by a remarkable educator. The three-volume commemorative issue is hardbound and packaged in a specially-designed slipcase. The lectures are also available in a student paperbound edition.

#### **Editorial Review**

About the Author

**Richard P. Feynman** was raised in Far Rockaway, New York, and received his Ph.D. from Princeton. He held professorships at both Cornell and the California Institute of Technology. In 1965 he received the Nobel Prize for his work on quantum electrodynamics. He died in 1988.

#### **Users Review**

#### From reader reviews:

#### Laura Mason:

Information is provisions for those to get better life, information today can get by anyone with everywhere. The information can be a knowledge or any news even a concern. What people must be consider when those information which is within the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you have the unstable resource then you buy it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat as the daily resource information.

#### **Maria Ives:**

Reading a book tends to be new life style within this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world could share their idea. Books can also inspire a lot of people. A lot of author can inspire their own reader with their story or maybe their experience. Not only the storyline that share in the publications. But also they write about the information about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors on earth always try to improve their talent in writing, they also doing some research before they write to their book. One of them is this The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat.

#### **Perry Payne:**

A lot of people always spent their very own free time to vacation or go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent that they free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity honestly, that is look different you can read some sort of book. It is really fun for you personally. If you enjoy the book that you just read you can spent 24 hours a day to reading a publication. The book The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat it is very good to read. There are a lot of those who recommended this book. These folks were enjoying reading this book. If you did not have enough space to create this book you can buy often the e-book. You can m0ore quickly to read this book out of your smart phone. The price is

not to fund but this book possesses high quality.

#### **Jody Watson:**

As a student exactly feel bored to be able to reading. If their teacher asked them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's internal or real their interest. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photos on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore, this The Feynman Lectures on Physics, Vol. 1: Mainly Mechanics, Radiation, and Heat can make you truly feel more interested to read.
