Business Development for the Biotechnology and Pharmaceutical Industry

By Martin Austin

Business Development in the biotechnology and pharmaceutical industries accounts for over \$5 billion in licensing deal value per year and much more than that in the value of mergers and acquisitions. Transactions range from licences to patented academic research, to product developments as licences, joint ventures and acquisition of intellectual property rights, and on to collaborations in development and marketing, locally or across the globe. Asset sales, mergers and corporate takeovers are also a part of the business development remit. The scope of the job can be immense, spanning the life-cycle of products from the earliest levels of research to the disposal of residual marketing rights, involving legal regulatory manufacturing, clinical development, sales and marketing and financial aspects. The knowledge and skills required of practitioners must be similarly broad, yet the availability of information for developing a career in business development is sparse. Martin Austin's highly practical guide spans the complete process and is based on his 30 years of experience in the industry and the well-established training programme that he has developed and delivers to pharmaceutical executives from across the world.

Editorial Review

Review

'Business Development is an integral part of business in the Pharmaceutical business today, in terms of contributing to innovation; partnering on assets and indeed asset management more broadly. As the industry consolidates, yet science still grows exponentially, Martin has drawn together a thoughtful framework to help the many people with diverse skills and backgrounds approach this complex topic.' William M. Burns, CEO Pharmaceuticals Division, Roche '...Hence, especially for people who are interested in this industry, this book offers an excellent introduction.' - Dr. Alexander Brem, Academici.com (Translated from German)

About the Author

Martin Austin is Managing Director of TransformRx GmbH which he formed in 2005 to provide business advice to clients regarding investment and business development. He is also a Partner in MarraM Advisors sarl and Chairman of RSA AG. He was previously a Principal in the Paul Capital Partners Royalty Funds a USA based specialist in Secondary Private Equity and Alternative Asset Investments and before that as Head of Business Development for the Pharmaceuticals Division at F.Hoffmann-La Roche. He has had a broad ranging career in the Pharmaceutical industry starting as a Medical Representative in 1977 he progressed through Sales and Marketing roles with GD Searle in the early 80s to become Business Development Manager with Lorex Pharmaceuticals and then became a consultant with Marketing Improvements before leaving to become a founding Director of Machine Intelligence Technologies. Later he took over Business Development for the Dendrite organisation before being appointed Managing Director of MHIG Ltd an international joint venture in Market Research and Consulting prior to joining Roche. After 30 years of experience at all levels in the industry he has a unique background and perspective from which to address this book.

Users Review

From reader reviews:

Byron Sierra:

But one aim this book can give many info for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or information that you take for that, you could give for each other; you could share all of these. Book Business Development for the Biotechnology and Pharmaceutical Industry has simple shape but you know: it has great and massive function for you. You can appear the enormous world by open and read a publication. So it is very wonderful.

Julio Rico:

This Business Development for the Biotechnology and Pharmaceutical Industry book is not ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is definitely information inside this publication incredible fresh, you will get information which is getting deeper you

read a lot of information you will get. That Business Development for the Biotechnology and Pharmaceutical Industry without we know teach the one who reading through it become critical in considering and analyzing. Don't end up being worry Business Development for the Biotechnology and Pharmaceutical Industry can bring once you are and not make your bag space or bookshelves' turn into full because you can have it in the lovely laptop even phone. This Business Development for the Biotechnology and Pharmaceutical Industry having great arrangement in word and layout, so you will not sense uninterested in reading.

Shaun Richards:

Do you one among people who can't read pleasurable if the sentence chained in the straightway, hold on guys this kind of aren't like that. This Business Development for the Biotechnology and Pharmaceutical Industry book is readable simply by you who hate those straight word style. You will find the info here are arrange for enjoyable studying experience without leaving actually decrease the knowledge that want to offer to you. The writer of Business Development for the Biotechnology and Pharmaceutical Industry content conveys the idea easily to understand by lots of people. The printed and e-book are not different in the articles but it just different available as it. So , do you even now thinking Business Development for the Biotechnology and Pharmaceutical Industry is not loveable to be your top listing reading book?

Ann Goddard:

As a pupil exactly feel bored to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Business Development for the Biotechnology and Pharmaceutical Industry can make you sense more interested to read.
