## **Editorial Review**

### **About the Author**

Barrett Hazeltine is a Professor of Engineering at Brown University and a registered professional engineer. He is a renowned educator, having received outstanding teaching awards from thirteen senior classes at Brown. In 1985, the award was named for him. Dr. Hazeltine has a wide array of international experience including teaching positions at the University of Zambia, University of Botswana, and Africa University in Zimbabwe. The development of this book came through a very successful engineering course for non-engineers in Appropriate Technology offered at Brown.

Christopher Bull is a Senior Research Engineer and Lecturer at Brown University, with a Sc. B. in Mechanical Engineering and a M.S. in Electrical Engineering. His interests and experience include solar energy systems and devices, and the design and implementation of efficient cook stoves. In addition, he has taught various engineering courses at Brown including the Appropriate Technology course for non-engineers.

## **Users Review**

### **From reader reviews:**

#### **Peter Clark:**

Information is provisions for individuals to get better life, information these days can get by anyone with everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider when those information which is from the former life are difficult to be find than now could be taking seriously which one is suitable to believe or which one typically the resource are convinced. If you obtain the unstable resource then you understand it as your main information it will have huge disadvantage for you. All those possibilities will not happen in you if you take Field Guide to Appropriate Technology as your daily resource information.

#### **Evelyn Rodrigue:**
