

Surface Production Operations: Volume III: Facility Piping and Pipeline Systems

By Maurice Stewart

Surface Production Operations: Volume III: Facility Piping and Pipeline **Systems** By Maurice Stewart

Surface Production Operations: Facility Piping and Pipeline Systems, Volume III is a hands-on manual for applying mechanical and physical principles to all phases of facility piping and pipeline system design, construction, and operation. For over twenty years this now classic series has taken the guesswork out of the design, selection, specification, installation, operation, testing, and troubleshooting of surface production equipment.

The third volume presents readers with a "hands-on" manual for applying mechanical and physical principles to all phases of facility piping and pipeline system design, construction, and operation. Packed with charts, tables, and diagrams, this authoritative book provides practicing engineer and senior field personnel with a quick but rigorous exposition of piping and pipeline theory, fundamentals, and application.

Included is expert advice for determining phase states and their impact on the operating conditions of facility piping and pipeline systems; determining pressure drop and wall thickness; and optimizing line size for gas, liquid, and two-phase lines. Also included are a guide to applying international design codes and standards, and guidance on how to select the appropriate ANSI/API pressuretemperature ratings for pipe flanges, valves, and fittings.

- Covers new and existing piping systems including concepts for expansion, supports, manifolds, pigging, and insulation requirements
- Presents design principles for a pipeline pigging system
- Teaches how to detect, monitor, and control pipeline corrosion
- Reviews onshore and offshore safety and environmental practices
- Discusses how to evaluate mechanical integrity

Editorial Review

About the Author

Dr. Maurice Stewart, PE, a Registered Professional Engineer with over 40 years international consulting experience in project management; designing, selecting, specifying, installing, operating, optimizing, retrofitting and troubleshooting oil, water and gas handling, conditioning and processing facilities; designing plant piping and pipeline systems, heat exchangers, pressure vessels, process equipment, and pumping and compression systems; and leading hazards analysis reviews and risk assessments.

Users Review

From reader reviews:

Elizabeth Murphy:

The feeling that you get from Surface Production Operations: Volume III: Facility Piping and Pipeline Systems could be the more deep you searching the information that hide inside words the more you get serious about reading it. It does not mean that this book is hard to know but Surface Production Operations: Volume III: Facility Piping and Pipeline Systems giving you buzz feeling of reading. The author conveys their point in selected way that can be understood simply by anyone who read it because the author of this e-book is well-known enough. This book also makes your personal vocabulary increase well. So it is easy to understand then can go along with you, both in printed or e-book style are available. We advise you for having that Surface Production Operations: Volume III: Facility Piping and Pipeline Systems instantly.

Deborah Brantley:

Information is provisions for folks to get better life, information today can get by anyone at everywhere. The information can be a expertise or any news even a problem. What people must be consider if those information which is within the former life are hard to be find than now could be taking seriously which one would work to believe or which one often the resource are convinced. If you receive the unstable resource then you buy it as your main information we will see huge disadvantage for you. All of those possibilities will not happen in you if you take Surface Production Operations: Volume III: Facility Piping and Pipeline Systems as the daily resource information.

Michael Dennison:

Are you kind of active person, only have 10 as well as 15 minute in your day time to upgrading your mind expertise or thinking skill even analytical thinking? Then you are having problem with the book compared to can satisfy your short time to read it because all of this time you only find publication that need more time to be read. Surface Production Operations: Volume III: Facility Piping and Pipeline Systems can be your answer since it can be read by anyone who have those short extra time problems.

Ana May:

That e-book can make you to feel relax. This specific book Surface Production Operations: Volume III: Facility Piping and Pipeline Systems was colorful and of course has pictures around. As we know that book Surface Production Operations: Volume III: Facility Piping and Pipeline Systems has many kinds or category. Start from kids until teens. For example Naruto or Investigation company Conan you can read and think you are the character on there. So, not at all of book tend to be make you bored, any it can make you feel happy, fun and relax. Try to choose the best book for yourself and try to like reading in which.
