## Sybil By Flora Rheta Schreiber

I don't know when I have been so moved by a book. I couldn't put it down. The story of Sybil is a psychological masterpiece. It breaks ground in the science of the human mind and at the same time provides the fascinating suspense of a top mystery thriller...enthralling from the first scene to the last. I find it an astonishing book, for what it states, but even more for what it implies. It forces you to look at yourself and the people around you in a new way. A highly readable and illuminating story..As a psychiatric adventure, Sybil is a fascinating book...High marks all around and most especially to Sybil herself for her endurance and courage and insistence on survival in the face of what must have seemed overwhelming odds.
