Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) By Dezsó Sima, Terence Fountain, Peter Karsuk

This timely book provides an unconventional and up-to-date overview of all the important computer architectures and is one of the first texts to present all the relevant concepts of advanced architecture classes by exploring their design spaces.

Advanced Computer Architectures will prove an indispensable guide for anyone who needs to be acquainted with the relevant concepts and solutions introduced in recent years to the dramatically changing world of computer architecture. For the student of advanced level courses in computer architecture, this book will provide a comprehensive and accessible overview of the subject whilst its strong practical orientation will make it an invaluable reference for the practitioner.

Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) By Dezso Sima, Terence Fountain, Peter Karsuk **Bibliography**

- Sales Rank: #2557033 in Books
- Brand: Brand: Addison-Wesley
- Published on: 1997-07-07
- Ingredients: Example Ingredients
- Original language: English
- Number of items: 1
- Dimensions: 9.50" h x 1.63" w x 7.00" l, 2.81 pounds
- Binding: Paperback
- 800 pages

Editorial Review

From the Back Cover

This timely book provides an unconventional and up-to-date overview of all the important computer architectures and is one of the first texts to present all the relevant concepts of advanced architecture classes by exploring their design spaces.

Advanced Computer Architectures will prove an indispensable guide for anyone who needs to be acquainted with the relevant concepts and solutions introduced in recent years to the dramatically changing world of computer architecture. For the student of advanced level courses in computer architecture, this book will provide a comprehensive and accessible overview of the subject whilst its strong practical orientation will make it an invaluable reference for the practitioner.

Features:

- Explores design spaces for each architecture class and exposes evolution of concepts and design issues
- Provides an up-to-date overview of significant architecture classes, including unique in-depth coverage of superscalar architectures as well as multithreaded, shared and distributed memory MIMDs, and associative and neural architectures
- Identifies which concepts and design choices have been made use of in important processors and illustrates significant trends and surpassed and viable concepts
- Case studies and tables show microarchitectural details of relevant processors, including the PentiumPro, PowerPC 604, PowerPC 620 and R10000, allowing comparisons between them

About the Author

Dezső Sima is Director of Informatics at the Kandó Polytechnic in Budapest where he has specialized in computer architecture since 1972. He has published two books and over thirty papers.

Terence Fountain is a Doctor of Physics and Astronomy at University College London and has previously published in the field of computer architecture.

Péter Kacsuk is Head of the Laboratory of Parallel and Distributed Systems at the KFI-MSZKI Research Institute of the Hungarian Academy of Sciences.

Users Review

From reader reviews:

Robert Goddard:

The experience that you get from *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) could be the more deep you digging the information that hide into the words the more you get interested in reading it. It does not mean that this book is hard to understand but *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) giving you enjoyment feeling of reading. The writer conveys their point in selected way that can be understood through anyone who read this because the author of this publication is well-known enough. That book also makes your own personal vocabulary increase well. So it is easy to understand then can go together with you, both in printed or e-book style are available. We recommend you for having that *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) instantly.

Byron Angle:

Are you kind of active person, only have 10 or maybe 15 minute in your day to upgrading your mind expertise or thinking skill even analytical thinking? Then you are experiencing problem with the book compared to can satisfy your short period of time to read it because all of this time you only find publication that need more time to be study. *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) can be your answer since it can be read by you actually who have those short extra time problems.

Bridgett Killion:

Reading a book for being new life style in this 12 months; every people loves to go through a book. When you go through a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, and also soon. *The Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) provide you with new experience in studying a book.

Charles Bock:

Some people said that they feel bored stiff when they reading a publication. They are directly felt this when they get a half areas of the book. You can choose often the book *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) to make your reading is interesting. Your own personal skill of reading talent is developing when you such as reading. Try to choose easy book to make you enjoy to learn it and mingle the opinion about book and reading through especially. It is to be initially opinion for you to like to start a book and go through it. Beside that the book *Advanced Computer Architectures: A Design Space Approach* (International Computer Science Series) can to be your brand new friend when you're experience alone and confuse with what must you're doing of their time.
