**Introduction to Economic Growth (Second Edition)** By Charles I. Jones

**One of the hottest fields in contemporary macroeconomics, economic growth is both fascinating to theorists and critically important to policy makers.**

In *Introduction to Economic Growth* the only text in the field designed specifically for advanced undergraduates? Charles I. Jones explains in clear, direct language how economists have come to understand the long-run growth of economies. Beginning with empirical evidence? how rich are the rich countries, how poor are the poor, and how fast do the rich and poor countries grow? ? Professor Jones then presents the major theories of economic growth, from the Nobel Prize-winning work of Robert Solow to the new growth theory that has ignited the field in recent years.
