By Frank Thissen

Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing) By Frank Thissen

Packed with numerous examples this easy-to-use manual provides designers of interactive media with a practical guide to screen design. Written for the working designer the manual shows how to rework information so that it is suitable for the chosen target group and the media they are using. It describes background information and encourages further development of the language of digital media. In doing so it covers all aspects of screen design, including: perception and learning, ergonomics, communication theory, image research, aesthetics, and the design of navigation and orientation elements.

Editorial Review

Review

From the reviews:

"Frank Thissen has given us a wonderful survey of the many factors affecting screen design for multimedia products. … The pages are well illustrated … . The color pages caught my eye … and will be yet another useful reference. … The Appendix contains a thorough list of references, broken down into many categories. This list will be a great resource … . If you could read only one book on the factors affecting screen design, let it be this one." (Rebecca C. Hall, Technical Communication, Vol. 52 (2), May, 2005)

From the Back Cover

The **Screen Design Manual** provides designers of interactive media with a practical working guide for preparing and presenting information that is suitable for both their target groups and the media they are using. It highlights background information and relationships, clarifying them with examples, and encourages the further development of the language of digital media. In addition to the basics of perception and learning psychology, ergonomics, communication theory, imagery research, and aesthetics, the book also considers design navigation and orientation elements. Guidelines and checklists, along with the comprehensive design of the book, support the transfer of information into practice.

Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart. For over 10 years he has been developing computer based training. He has worked for international companies such as Siemens AG and SAP AG. His research project explores the role of emotion in e-learning > www.frank-thissen.de

Users Review

From reader reviews:

David Binkley:

What do you think about book? It is just for students since they are still students or that for all people in the world, exactly what the best subject for that? Just simply you can be answered for that query above. Every person has several personality and hobby for every other. Don't to be compelled someone or something that they don't need do that. You must know how great and also important the book Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing). All type of book are you able to see on many methods. You can look for the internet resources or other social media.

Elvira Eberhardt:

A lot of people always spent their free time to vacation as well as go to the outside with them household or their friend. Are you aware? Many a lot of people spent they free time just watching TV, or playing video games all day long. If you need to try to find a new activity that is look different you can read a book. It is really fun in your case. If you enjoy the book that you simply read you can spent the entire day to reading a book. The book Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing) it is very good to read. There are a lot of people who recommended this book. They were enjoying reading this book. Should you did not have enough space to bring this book you can buy the actual e-book. You can m0ore quickly to read this book out of your smart phone. The price is not to cover but this book has high quality.

George Pinard:

Many people spending their time period by playing outside along with friends, fun activity together with family or just watching TV the entire day. You can have new activity to pay your whole day by examining a book. Ugh, do you think reading a book can actually hard because you have to take the book everywhere? It alright you can have the e-book, having everywhere you want in your Cell phone. Like Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing) which is obtaining the e-book version. So , why not try out this book? Let's observe.

Lisa Martin:

That guide can make you to feel relax. This kind of book Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing) was colorful and of course has pictures on there. As we know that book Screen Design Manual: Communicating Effectively Through Multimedia (X.media.publishing) has many kinds or type. Start from kids until teens. For example Naruto or Private eye Conan you can read and think that you are the character on there. So , not at all of book are usually make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for yourself and try to like reading that will.
