The Human Record Volume 2: Since 1500 (Human Record) By Alfred J. Andrea, James H. Overfield

Now in its Sixth Edition, The Human Record continues to be the leading primary source reader for the World History course. Each volume contains a blend of visual and textual sources; these sources are often paired or grouped together for comparison. A prologue entitled, "Primary Sources and How to Read Them," appears in each volume and serves as a valuable pedagogical tool. Unlike many world history texts that center on the West, The Human Record provides balanced coverage of the global past. Approximately one-third of the sources in the Sixth Edition are new, and these documents continue to reflect the myriad experiences of the peoples of the world.
