Five Days in Paris: A Novel By Danielle Steel

In Danielle Steel's beloved #1 *New York Times* bestselling novel, two strangers meet unexpectedly and fall in love in the City of Light.

As president of a major pharmaceutical empire, Peter Haskell has everything: power, position, and a family that means everything to him. Compromise has been key in Peter Haskell's life, and integrity is the base on which he lives. Olivia Thatcher is the wife of a famous senator. She has given to her husband's ambition and career until her soul is bone-dry. She is trapped in a web of duty and obligation, married to a man she once loved and no longer even knows.

Accidentally, they meet in Paris. Their totally different lives converge for one magical moment in the Place Vendôme, as Olivia carefully, silently, steps out of her life and walks away. Peter follows her, and in a café in Montmartre, their hearts are laid bare. Peter, once so certain of his path, is suddenly faced with a professional future in jeopardy. Olivia is no longer sure of anything except that she can't go on anymore.

Five days in Paris is all they have. They go back to their separate lives, but nothing is the same. Everything they believe is put on the line, until they each realize they must stand fast against compromise and face life's challenges head-on.

Danielle Steel's classic novel is about honor and commitment, love and integrity—and the strength to find hope again. *Five Days in Paris* will change your life forever.

BONUS: This edition contains an excerpt from Danielle Steel's *Hotel Vendome*.

Editorial Review

Amazon.com Review

Olivia Thatcher is the young wife of a powerful U.S. senator, and Peter Haskell is the president of a pharmaceutical empire. When their paths cross serendipitously on the night of a bomb scare, they spill their hearts to each other--and both know their lives will never be the same.

From Publishers Weekly

The grand, operatic gesture dominates Steel's 36th novel, a tightly crafted, if utterly unsuspectful, tale that pits honor against ambition in high places. Peter Haskell has it all: a beautiful wife, three great sons, a satisfying job as president of the world's leading pharmaceutical firm, and the formula for a new drug, Vicotec, that promises to revolutionize chemotherapy. Awaiting the results of a French specialist's final testing of Vicotec, Peter also has a hotel room at the Ritz in Paris, which puts him in proximity to fellow guest Olivia Thatcher, the wife of a Virginia senator whose eyes are set firmly on the White House. Peter's world begins to spin apart when he learns that Vicotec is not the miracle he hoped for but a potential killer. But of what importance is such a turn of events in the face of l'amour? This is Paris, after all, the perfect setting for Peter to approach Olivia one night; on the steps of Montmartre, the two realize that they are soul mates, and that their marriages are, in fact, empty. All too soon, however, the lovers must return to reality: Olivia, to her husband's offer of \$1 million a year to stay by his side; Peter, to untold millions if he'll just fib a little bit about those test results; and so both must face their own, ultimate moral test. Steel leaves no cliché unturned in this garden of predictabilities, but the fauna is glitzy: Catherine Deneuve and Clint Eastwood make cameo appearances; the flora is bright and, in the end, all's well that ends well, which is, after all, the only way her fans would have it. Major ad/promo; Literary Guild main selection; simultaneous BDD Audio; British, translation, first serial, electronic, performance rights: Janklow & Nesbit Associates.
